STILL LATER.

We have been kindly furnished by a friend with the Baltimore Patriot of May 30, from which we extract the following, being a recapitulati n of the accounts, as far as receiv. ed by that press, from which our readers may nearly gather the political complexion of the two houses of the General Assembly.

HOUSE OF DELEGATES.

Correcting our former accounts, which conceded R pp hannock, Tyler & Brooke. to the Loco Focos, and eroneously credited the Loco Focos with a delegate from Greenbriar, we have the following as the result of the election of this, compared with that of last year, in 81 c ties and counties, which together elect 10, members of the House of Delegates.

Elected this year.

Whig. Con. L.F. W. Con. L. F. 5 43 59 11 31 18 counties, 53 Wythe Pocahontas, 1 Patrick,

44

60-11

There are 25 counties yet to be heard from. They last year sent 11 Whigs and 19 Loco Foco delegates. If the same p litical re ati n be con inued, the next house of dellegates will consist of 66 Whigs, 5 Conservatives, and 63 Loco F. cos, -and the joint vote of the two houses be 77 Whigs, 8 Conservatives, and 81 Loco Focos.

If the accounts of the election of Whigs in Rappahannock and Tylers and a Couservative in Brook, be true, we hardly think it possible that the administration party proper, will be enable to elect the Senator of the United States.

ANOTHER SUB-TREASURER

DEFAULTER.

At the last term of the Washington City Circuit Court, the United States obtained a virdiet for \$7,748 against W. Steuben Smith, late a subtreasurer in the General Land Office. He had pocketed this sum while in office and was then invited to retire. Of ourse he complied with the request and is now at large.

NEW YORK .- The general result of the recent town and city elections in this State, leaves both parties where they stood last year. For example, the general result for supervisors throughout the State is us follows:-

	LUCIO	10000
Whig.	450	449
Loc -f co,	395	394
Whig maj rity	in 1838, 55;	Do. in 1839
per a company of the		

This at once gives the answer to the 61 be's boasting of Loco-Foco gain.

INSULT TO OUR FLAG.

An arrival at New York from Rio Janeiro, brings the following account of the capture of two Americ n vessels by the French fleet blockading Buenos Ayres, and their detention by the French commander. the circumstances are correct as detailed in the Journal of Commerce, published at Rio, this insult ought not to be a bmitted to for a moment. The account was translated for the U. States Gazette by the correspondent of that paper.

The two American brigs, the America and Eliza Davidson, had sailed from M untevideo wi h full cargoes for Lobena Chira, a small port on the coast of Patagoma, belonging to the Argentine republic, but which is beyond he limits of the bl ckale, published by the French Admiral, which only includes those f. om the port of B ienos Ayres, to those south of the river Da Prata.

The vesse's in question, had, it appears, discharged, and was taking in cargo when a French man-of-war arrived at Lobena Chica, having been despatched by Admiral Leblane for the purpose, which at once took possession of the brigs, and brought them round to Montevideo, without their flags, as prizes, for an infringement, adds the Journal de Commercio, of a blockade which never had existed, either de facto or on paper.

The consignees of the captured vessels had applied in vain to the French Admiral for their release, who would only grant such, on conditions that bonds to the full amount of their value should be given, until the case of the brigs had been decided by the Admiralty Tribunal of France-a proposi tion which the consignees at once rejected.

The American Admiral had, in consequence written to Admiral Leblanc, protesting in the strongest terms against such a probe tolerated by the Government of the U. States, and demanding an immediate release of the captured vessels

At our last dates, however, from Montevideo, the 21st March, no reply to this communication had been received, and we are consequently as yet in ignorance as to the result of this gross outrage on our flag. The matter has excited much interest in Rio, where the conduct of the French Admiral is severely censured.

The N. Orleans Bulletin of the 32d gives the following important news from Mex-

the ascendant.

IMPORTANT FROM MEXICO. By the schooner Water Witch, sailed from Vera Cruz on the 8th inst., intelligence has been received of an import very disastrous to the cruse of Federa'ism. Our only hope is that it may turn out to be a fa'se rumor. On the 7th inst. an express reached Vera Cruz from the interior, bringing infomation that a pitched battle had been fought in the

neighborhool of Puebla, between the army

of the government and the federalis's, in

their forces. Gen Mexia, it is said, was cap tured and afterwards shot by order of Santa Ana. The two other leaders in the insurrection, Gen. Urrea and Escalada effected their e-cape. The government troops were under the command of General Valencia. If the report be true, the effect of the victory will be to restore a temporary quiet to Mex ico. After so signal a defeat, and the less of their most efficient leader, the federalists will not be able longer to procrast nate the struggle. Probably the fugitive chieftains may seek safety by flight to this country. But the impression is strong that Mexico can not long enjoy an exemption from civil war. She carries within her own bosom the elements of discord, the workings of which, like the throes of a volcano, are sure to produce convulsions. The truth is, a lamentable want of common honesty among the leading men of Mexico. They are unscrupulous, profliga'e, rapacious, and as destitute of moral principle as pirates. Their chief aim in getting into power is to enjoy the opportunity of pillaging the public treasury. Hence a constant struggle is going on between the robbers that are in power and those who are out .- N. O. Bulletin.

which the latter sustained a total defeat with

immense loss followed by the dispersion of

* The stock of up-country produce have not increased much during the past week, and holders are pretty firm, whilst prices have an upward tendency. The great scarcity of money, howeve, prevents extensive operations, and the demand seems to be chiefly at retail.—At our latest advices from above, the Ohio, Cumberland and Tennessee rivers had fallen considerably, and the water was becoming too low for us to expect many more shipments from those streems this sea-

From Missouri and Illinois the prospect is a li tle more encouraging. The Missouri fresh as it is called, is Leginning to make its appearance, and the upper Mississ ppi is also reported to be full. On Saturday last this river commenced rising, and although under a mildling s'age, is now as high as it has been at any period during the last winter, and it is still rising more rapidly than it has heretofore done.
